PROFESSIONAL SUMMARY

I am a software developer with 5 years of experience specializing in Angular. I have strong skills in web application development using Angular, JavaScript, TypeScript, HTML5, and CSS3. I am proficient with Git, React.js, Node.js, and MongoDB, and have solid experience with the MEAN stack. I excel in using SASS/SCSS for styling and webpack for module bundling. I seamlessly integrate REST APIs and thrive in collaborative teamwork environments.

TECHNICAL SKILLS

Programming Languages: HTML, CSS/SASS/SCSS, JavaScript, TypeScript

Framework: Angular with NgRx, React with Redux, Node.js with express

IDE/Tools/DB: VS Code, Postman, webpack, mongoDB

EXPERIENCE

Accenture

April 2023 -- Present

Application Development Senior Analyst

Noida, India

Project: RTBI (Real Time Business Intelligence) Canadian National Railways

Technology Used: Angular with NgRx, TypeScript, Javascript, Angular material, SASS, webpack, Git

Responsibilities: -

- Skilled in NgRx, I efficiently manage app states for seamless data flow.
- Create dynamic, responsive front-ends for enhanced user experiences and build reusable components and front-end libraries for future use.
- Proficient in RxJS, I've adopted reactive programming paradigms, facilitating the creation of highly responsive and scalable applications that handle data streams effectively.
- Proficient in Node.js, adept at integrating REST, SOAP APIs, and WebSocket programming for real-time data handling.
- I ensure code quality with Jest and Jasmine and automate deployments using Azure DevOps.

Tata Consultancy Service

October 2020 -- April 2023

System Engineer

Bangalore, India

Project: Equifax (Credit Reports)

Technology Used: Angular, Single-SPA library, TypeScript, Javascript, Bootstrap, SASS, webpack, Git

Responsibilities: -

- Create single-page applications using the front-end framework Angular, defining the structure, services, and components of the application, and ensuring that they are scalable and reusable.
- Create a micro-front-end application using a single-spa library, so we can bring multiple Javascript micro front-end apps into a single front-end application.
- Experienced in writing tests using Jasmine, integrating REST APIs, and deploying with Jenkins, SonarQube, and Docker.

Greenleaf Engineering LTD

Jan 2019 -- October 2020

Engineering Application Developer

Noida, India

Project: AME Tank

Technology Used: LISP, AML

Responsibilities: -

- Proficient in LISP, I create modules using both object-oriented and functional programming, emphasizing reusability, robustness, and scalability.
- Leading scalable app development, I leverage LISP for versatile, efficient, and powerful software modules.

Code2Dev

Web Developer

Responsibilities: -

- Design and implement PHP web applications with database connectivity.

August 2018 -- October 2018

Noida, India

EDUCATION

Dr. APJ Abdul Kalam Technical University, Lucknow

B-Tech (Electronics & Communication Engineering)

July 2014 – May 2018

Ghaziabad, U.P, India

SOFT SKILLS

Strong Communication | Problem-Solving | Adaptability | Team Collaboration | Leader | Continuous Learning
